

# C-38: REFRIGERATION

## COURSE MATERIALS SUMMARY

### Audio/Video Lectures:

Math Review  
(35 Minutes)

Health and Safety  
(60 Minutes)

### C-38 Practice Exams:

C-38 Test 1 (120 Questions)

C-38 Test 2 (120 Questions)

C-38 Update (Most current questions)

Health and Safety Test (115 Questions)

### General Information

The C-38 Manual briefly covers the major topics of the State exam including Basic Electrical Formulas, Electrical Materials, Insulating Materials, Refrigerants, Refrigeration Materials and Tools, Mechanical Refrigeration Systems, Absorption Refrigeration Systems, and Electrical Plan and Circuit Symbols. The C-38 Manual covers the Health and Safety Orders.

The Math Review Lecture covers the math formulas in the first part of the C-38 Manual. The Health and Safety Lecture covers the Health and Safety Orders at the end of the C-38 Manual.

Be sure that you study all of the practice exams. It is important to read and understand each question and read every word of the explanations. It is necessary to learn the principles behind the question because the State's questions may be worded differently.

The Online Practice Exams are available with most kits. A key-code will be included just inside the cover of the written manual(s). There are three different methods of studying using the online practice exams: Non-graded quizzes, flashcards, and exam simulations. Once activated, subscriptions are good for up to 365 days. Extensions may be purchased for an additional fee.
